

**Martin Ince**  
**Director**  
**Canadian Geothermal Energy Association**  
St. Catharines, ON

Mr. Ince is the president and owner of M.K. Ince and Associates. He is a licensed Professional Engineer in the Provinces of Ontario and British Columbia.

Mr. Ince has over 20 years of professional experience which includes providing renewable energy consulting and hydrogeological engineering services. He has worked on numerous large and small scale wind energy initiatives in project management, environmental assessments, wind resource assessments, noise and visual impact assessments, Municipal planning approvals, OMB hearings, public presentations and First Nations consultation.

Mr. Ince's project management experience includes program development, proposal preparation, project deliverables, resources, schedules and budgets, liaison with regulators, clients and third parties and health and safety plan development. He serves as senior technical reviewer on all environmental and engineering work completed by M.K. Ince and Associates.
