

# CanGEA

CANADIAN GEOTHERMAL ENERGY ASSOCIATION

## 2019 Membership Benefits

# OUR MISSION:

*Accelerate Canadian exploration and development of geothermal resources in order to provide secure, clean, and sustainable energy.*

Since 2007, the Canadian Geothermal Energy Association (CanGEA) has acted as the collective voice of Canada's geothermal energy industry with a focus on the power generation and industry-scale direct use. As a non-profit industry association, we represent the interests of our member companies with the primary goal of unlocking the country's tremendous geothermal energy potential. Geothermal energy can provide competitively priced, renewable, round-the-clock heat and power to the Canadian market.

CanGEA promotes the industry and the potential of geothermal energy in Canada through outreach events, research, policy advocacy and the representation of Canadian interests internationally.

  
 Exclusive Membership  
**Benefits**

**CanGEA Market Visit Subsidy (MVS):**

CanGEA corporate members are eligible to apply for our MVS, which provides a reimbursement of up to 50% of airfare, transportation costs, and event registration along with a ~\$200 daily allowance. Past MVS destinations include conferences in Iceland, Indonesia, Germany, Australia, New Zealand, Turkey, and throughout the United States.

**Policy Committees (PC):**

CanGEA's corporate members can participate in our PC that oversee various regions in Canada. Participating in the PC allows for members to contribute to CanGEA's policy advocacy efforts in their respective region and help shape Canada's geothermal energy future.

**Geothermal Energy Industry Supply Chain:**

CanGEA prides itself with having members all along the geothermal energy industry supply chain. With a CanGEA membership comes the added benefit of joining our member supply chain. CanGEA strongly encourages companies to source their services and goods from other CanGEA members, thereby strengthening Canada's geothermal energy sector.

**Increasing Exposure:**

CanGEA offers our corporate members the opportunity to gain exposure through CanGEA's web presence. Our combined web presence reaches approximately 500,000 individuals and companies from around the world and is a great way for your company to grow your public profile and engage with the geothermal energy industry at large. Corporate members are also eligible to have a feature in our annual Skills and Project Profile.

**Exclusive Member Newsletters:**

CanGEA's exclusive monthly member newsletter keeps you informed on all the latest Canadian geothermal energy industry matters. The monthly newsletter includes geothermal energy news updates, policy updates, upcoming industry events, and funding opportunities for your company.

**Intern Share Program:**

As an extra benefit to our Volcano members, CanGEA offers an intern share program throughout the summer. In this program, Volcano members can access CanGEA interns for two- to sixteen-week blocks, rotating through each interested member company. For 2019, CanGEA is expecting to hire an Operations Intern and a Policy Intern, which are available exclusively to Volcano members.

**Questions? Contact [info@cangea.ca](mailto:info@cangea.ca) for more information!**

## CanGEA Membership Levels

### **Volcano Member - \$5,000/year**

The Volcano corporate membership gives you all the benefits available to CanGEA members, including free access to the MVS, events, reports and databases. The Volcano level also enables businesses to assist in steering CanGEA's policy advocacy efforts, access our intern share program, and to participate in CanGEA's Board of Directors.

### **Geyser Member - \$3,000/year**

The Geyser corporate membership is designed for companies that want to stay up to date with CanGEA's policy efforts and receive technical support from CanGEA's Policy Team. Geyser members are also eligible to vote at CanGEA's Annual General Meeting, participate as a Policy Committee Member, and receive a 50% discount towards our MVS, reports, and events.

### **Fumarole Member - \$700/year**

The Fumarole corporate membership is designed for companies that want to be a part of the Canadian geothermal energy supply chain and access CanGEA's MVS. The Fumarole level also receives the latest geothermal energy sector policy updates and is able to participate as a Policy Committee Member.

### **Hot Spring Member - \$400/year**

The Hot Spring level membership is intended for government departments, First Nations, non-profits, companies seeking a non-corporate membership and academic institutions. The Hot Spring membership comes with a complimentary geothermal 101 presentation.

### **Tectonic Member - \$60/year**

The Tectonic Membership is intended for students and individuals that want to support CanGEA and stay up to date with the latest in Canadian geothermal energy news. Tectonic members are given priority consideration for CanGEA internships and access to CanGEA's exclusive member newsletter.
